Dave Cortese Has Worked To Provide Every Student With The Quality Education That Brings Out The Best In All Of Us

Dave Cortese has worked to ensure that every child in our region has the opportunity for a quality education, from kindergarten through college.

While they're in school, Dave has worked to keep our kids learning, growing and out of trouble.

His Efforts Have Produced Real Results:

- Increased the number of Latino students passing algebra in the ninth grade.
- Co-founded the East Side Heroes program to provide financial assistance to low-income students attending high school.
- Led the effort to enroll thousands of students in the Jose Valdes Math Institute.
- Helped establish Latino College Prep at National Hispanic University.
- Helped create more than 200 after-school "homework centers" that have kept 25,000 San Jose students learning after the school day is done.

Dave at National Hispanic University.

"I urge you to support Dave Cortese for the Board of Supervisors so he can continue his work to bring out the best in all of our children."
